

Job Description:

This position is for a mid to senior level ReactJS and UI developer in the 3 to 5 years experience range.

Job Location:

Ahmedabad or Remote (Work from Home)

Key Skills Required:

- In-depth knowledge of JavaScript, CSS, HTML and other popular frontend libraries like jQuery, bootstrap etc.
- Hands-on project experience on ReactJS
- Knowledge of other popular ReactJS related libraries like Enzyme, Redux, Flux, Mobex etc.
- Familiarity with newer specifications of EcmaScript
- Experience with browser-based debugging and performance testing software
- Proficiency with CSS3, Less, Sass and Mixins
- Proficiency in responsive website development
- Familiarity with ReactJS application development using mock services which returns sample json response
- Experience with common front-end development tools such as Babel, Webpack, NPM, Bower, Gulp, etc.
- Expertise in code testing best practices, including unit and integration testing (Mocha, Chai, Jasmine, Rspec, Capybara, Karma, Protractor)
- Familiarity with version control system like Git and preferably experience working with BitBucket or GitHub
- Eagerness to follow best coding practices
- A personal portfolio proving all above skills

Skills which would be an added advantage:

- Node.js
- React Native
- GraphQL
- Typescript
- GASP based javascript animations
- AWS (API Gateway, Lambda, SNS, SES, SQS, S3, DynamoDB, RDS, EC2, Cloud Formation, CLI)

Desired Team/Project management skills:

- Experience in scrum based agile practices (sprint planning, backlog grooming, retrospective, timesheet management, sprint demo etc.)
- Experience working with backend developers closely
- Experience with overseas client communication
